

Remarks:

In this paper, the applicant has canceled all of the prior claims in the application which is believed to fully address, and to render as moot the Examiner's wish correction requirements, and election of species requirements. It is believed that the newly presented claims which are all directed to an "air treatment device" are not further divisible, and are directed to a single invention which can be suitably searched and examined by the Examiner in charge of the instant application, without the requirement of any further restrictions or election of species.

Should the Examiner in charge of this application believe that telephonic communication with the undersigned would meaningfully advance the prosecution of this application, they are invited to call the undersigned at their earliest convenience. The early issuance of a *Notice of Allowability* is solicited.
